FROM THE HOUSE MASTER'S DESK

REFLECTING ON OUR INNER LIGHT

"Time spent on self-reflection is never wasted: it is an intimate date with yourself."

- Paul TP Wong

Dear Students,

Just as Diwali differs from region to region in this vast country, each person relates to this beautiful festival of lights differently. Most commonly seen around are the abundance of sweets, family gathering, and lighting that symbolize the inner light that protects each of us from spiritual darkness.

All over the country there are several versions of the Diwali story that vary among different communities, however, the common underlying focus is on the epic tales of victory won by incarnations of Lord Vishnu. His role is said to be of the one who restores the balance of good and evil in times of trouble.

On this Diwali we may reflect on the notion of good and evil with our families to gain important insights into our inner selves. 'Good' would help us to get away from self-centeredness by making this festival a time to donate some part of our happiness through service or in kind to needy people around us. Evil is when we are unable to empathize with others, when we are perennial self-centred individuals.

Let us, therefore, cultivate qualities of kindness, compassion and empathy so that our Tiny Tots can learn from watching us and from experiencing our empathy for the needy around us. Let us continue to strengthen our sense of community and togetherness, for it is through these shared moments that we truly thrive as a school.

Warm Regards!

Dr. Amarnath Sinha (PGT Chemistry)
